The figure consists of two circular diagrams, one for 'Gauche' (left) and one for 'Droite' (right). Each diagram has a radial axis from 0 to 40 and a circumferential axis from 0 to 90 degrees. Data points are categorized as 'Perçus' (green circles), 'Non perçus' (red triangles), and 'Non testés' (open circles). In the 'Gauche' diagram, 'Perçus' points are at approximately (0, 30) and (90, 10), while 'Non perçus' points are at approximately (30, 30) and (90, 10). In the 'Droite' diagram, 'Perçus' points are at approximately (0, 30) and (90, 10), while 'Non perçus' points are at approximately (30, 30) and (90, 10). 'Non testés' points are distributed throughout the diagrams, mostly between 10 and 20 on the radial axis.
